

About Skywise

What is Skywise?

Skywise is the leading Enterprise Data Platform for the aviation industry. It is offered by Airbus and powered by Palantir Technologies.

Who is Skywise for?

Skywise can create value across the aviation industry and even beyond: for airlines, lessors, suppliers, third-party developers, MROs, airports, airworthiness.

When was Skywise launched?

Airbus launched the Skywise aviation data platform at the 2017 Paris Air Show.

Can I follow Skywise on social media?

You can follow Skywise activities on our [LinkedIn page](#) and on the Airbus and Airbus LIVE Twitter page during Skywise events.

Practical information

If you want to reach the technical support team, you can call on the +33 567 191 100 from Monday to Friday, 1 am to 6 pm UTC or you can also fill the dedicated form and even chat with our experts on support.skywise.com.

How can I schedule a demo of Skywise?

You can schedule a Skywise demo by filling the dedicated form on the [Schedule a demo page](#).

How can I contact the Skywise support service?

You can contact the Skywise support team by phone on the +33 567 191 100 from Monday to Friday, 1 am to 6 pm UTC. You can also fill in the dedicated form or chat with our experts on support.skywise.com.

Is it possible to have a training for the Skywise platform?

Trainings for the Skywise platform are delivered by the Skywise Academy. Skywise Academy classrooms are applicable to all Skywise community members and organizations that have a Skywise core contract with Airbus. For more information, please visit our [Skywise Academy website page](#).

Is my data stored on the platform safe?

We understand that security is fundamental to the success of the Skywise platform. As a result, Skywise is designed with the highest levels of security across each level of the platform, while relying on a strong data policy to control users' authorizations to access data.
